

Particle Shadow Velocimetry Optical Kit

(Product ID: OP-K-PSV)

The Particle Shadow Velocimetry optical kit contains all optics to be used on the PSP-CCD-C and PSP-CCD-M cameras.

Variable width bellows are included to adjust the field of view for the PSV experiment. A Canon EF lens is supplied with the kit as well as an adapter to connect the EF bellow to c-mount camera. Spacing and orientation are dependent on the particular experiment.

Part	Quantity
LC-2 Canon Lens Controller	1
EF-c Lens Adapter	1
AF Bellows for EF Lenses	1
Sigma 18-300mm f/3.5-6.3 Lens	1

All components contained in OP-K-PSV are EAR99.
